

Football moment

Football is more than sport. It is a simple game that brings smiles even to the saddest faces. It is a fatal love, which enriches even the coldest morning. It is a universal language spoken by all, regardless of geographical barriers. It is a magic song that gives everyone a different melody. It is an abstract painting where the colours blend continuously. Football is a way of life.

A moment. That magic moment that we try to capture every time we look at the clear starry sky. The moment that allows us to offer satisfaction. This is our moment. Football moment.

With its new campaign, the Football Association of Slovenia wishes to catch football moments with your help. Open your eyes, football motifs are present at every step. A ball, play, playground, pleasure, people... Share these football moments that enrich everyday life. Be creative, the most original, authentic football moments will be published and rewarded with licensed products of the Football Association of Slovenia.
